

10. KNOWLEDGE TRANSFER AND EXCHANGE (2 pages maximum)

In this section, describe how you might include end users in the design and execution of the research and/or the steps you will take to transfer your research findings to end users.

Use up to 2 pages!

Knowledge Transfer Framework

WorkSafeBC will follow up after project completion to ask how you implemented your knowledge transfer plan - - you will be asked to complete a Survey - - WorkSafeBC wants to know if the results were applied/used and have they made a difference?

The Relevance Review Committees will need to be convinced that your communication and dissemination plans are appropriate.

State exactly what your plans are and how they are appropriate!
